

High-power Tri-proof Lamp Series

FTN-TP-030/070/080-AW-XX-A-YY

ArcS I A

Description:

Tri-proof light is usually used in environment which require water-proof,dust-proof,slight corrosion-proof lighting, and it is widely used in parking lot, warehouse,workshop,farm and other indoor places. High-power tri-proof lamp adopt stainless steel buckle, durable, convenient to disassemble. Employ PC cover,safe and reliable,suitable for ceiling and suspended installation.

Features:

1. Buckle design, simple structure, convenient to disassemble;
2. High transmittance PC cover+high lighting effect LEDs, and lighting effect can be up to 100 LM/W; uniform light, no dark spot;
3. Employ anti-UV cover, can be used in outdoor environment;
4. High quality PC, high impact-resistance,IK08;
5. Can on/off frequently,no flicker;
6. CRI >80;
7. Compact appearance, convenient to install and transport;
8. Corrosion-proof grade: slight protection.
9. Operating environment temperature:-20°C- 35°C.

Technical parameters :

Model	CCT	Color	Lumen(lm) (±10%)	Beam angle	LED Type	Voltage frequency	Power(w) (±10%)	Max current (A)	CRI	PF

01=normal milky cover series
02=normal strip cover series

Main application:

Tri-proof light can be used in warehouse, parking lot, shopping mall, farm, food factory, cold storage, metro, underground passage and other places.

Dimension (Unit:mm):

Installation figure:

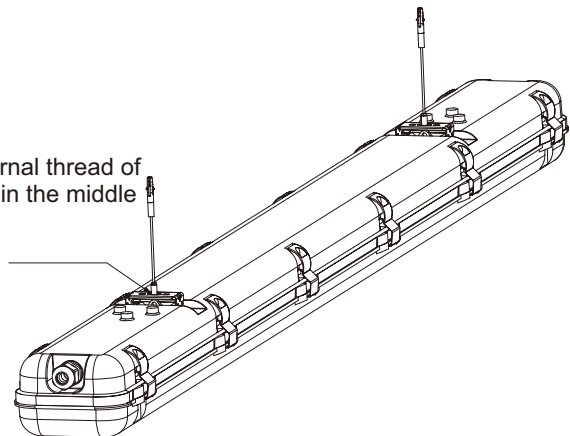

Ceiling installation :

Suspendent installation :

insert external thread of steel rope in the middle of holder

Package information :

Power	Inner packaging dimension	Outer carton dimension	Net weight	Gross weight	Qty.
30W	20W: 700*150*105mm	20W: 720*470*350mm	1.25Kg	1.50Kg	12pcs/Carton
70W	40W: 1300*150*105mm	40W: 1320*470*240mm	2.30Kg	2.60Kg	6pcs/Carton
80W	50W: 1600*150*105mm	50W: 1620*470*240mm	2.80Kg	3.20kg	6pcs/Carton

Installation requirement:

- 1.Power off before installation;
- 2.First make sure the installation material can endure the weight of light,securely fix the holder on the installation surface with plastic anchor,self-tapping screws, then install the lamp into holder;
- 3.Connect the lamp wire to the wire of power supply, and process the joint with insulation sealing;
- 4.If you choose suspension installation, please first fix the steel wire on the installation surface,thread M5 bolt on one end steel wire through $\Phi 5.5$ hole, and fasten with M5 nut at another end;snap the lamp into holder,finally adjust the length of steel wire to prevent losing and falling.

Notice:

- 1.Please first read the product specification carefully, make sure the using environment conform to specification, then it can be used;
- 2.Please confirm input voltage,frequency before use;
- 3.The lamp must be installed by professionals;
- 4.If there is any damage to the power wire or shell of the product, it should be taken as defective product and do not use it;
5. Dangerous high voltage,non-professionals are not allowed to maintain the product;
6. If external soft cable or soft wire of the light is damaged, it should be replaced by manufacturer or service agent or personnel with similar qualification to avoid danger;
7. When connect wire of AC, the terminal shouldn't press to external skin, ensure good contact;
8. Please do not let water enter the internal, please do not knock against the LEDs' surface;
9. Corrosivity in the using environment can't exceed the anti-corrosion grade regulation, if you have special requirement, please first consult with our company.
